

Affordable Web Presence for only \$99.00

What a great price to get your presence on the web for one low price. You provide me with your content and your color preferences/scheme, and I will set your page up.

What you get is:

1. One year web hosting
2. Your own domain (if available, I will help you come up with a suitable name)
3. Two custom designed web pages, Home Page & Contacts Usually this is enough (extra pages are \$25.00 per page)
4. Email Forwarding
5. Auto Reply to incoming emails.
6. Web Mail (This feature allows you to access your email from any computer)
7. (2) Custom email Accounts to get you started (i.e. info@<yourdomain>.com up to 8 additional email accounts are available for an extra setup fee of \$5.00 per email)
8. 50 MB storage great for pictures etc. (more storage is available for an extra fee to initial setup)
9. Submission to (3) search engines and/or directories to increase your presence on the web.
10. Need to update once you are up and running, my fee is \$20.00 per hour min 1 hr.

The Catch: I require that you allow me to place (2) advertising banners of my choice on your site. They will be placed on the bottom of each page. This helps me offset the costs and allows me to offer such a low price. Full payment is due at the time of request. I will not be responsible for any copy write violations. This is your site and I will provide you with copies on a CD upon request.
